TESTIMONIALS

With all my heart I believe that the Lord called me to NCS after teaching for 8 years in Calgary. Now 21 years on, I am looking forward to shifting part of the load onto younger shoulders, maybe like yours! You will love the friendship and fellowship here in our community. If you sing, you will especially enjoy our staff worship times. Please know that Jesus is absolutely central to everything here. Hopefully that fact thrills you, as He is why I still really do love coming in to work every day - and these pretty awesome (and often challenging!) kids, and their pretty awesome (and sometimes challenging) parents... God Bless and lead you as you consider and pray about your next adventures!

- Paul

The support and community built through team collaboration is second to none! It works so well! In the last school I was at I taught grade 6 and there were three gr. 6 classes and we all taught the same curriculum but in silos! It's seems ridiculous to me now!

- Sandra

I Love the atmosphere of love and commitment to seeing all our students grow and develop. I am amazed by everyone's willingness to see all kids develop. Relentless hope for all kids!

- Lis

If you appreciate working in community and having other teachers who will support and encourage you, NCS is a great place to work. The teachers at NCS truly practice authentic community and work together in team to bring out the best in each one of us.

- Brian

I love working at NCS in no small part because of the sense of community among the staff and students alike. This community makes coming to work each day joyful and pleasant.

- Amy

I have never felt a larger sense of community that I feel here. I love going to work everyday which is something I don't think many people can say.

WHY TEACH AT NCS

1. Student Centered Approach to Learning

At NCS, we don't just say we believe that God has made all kids unique. We live that out! We do not offer a 'one size fits all' education, rather, we provide cross-graded, cross-curricular, multi-age learning experiences that challenge and engage students where they are at and acknowledge who God has created them to be.

2. Collaborative Teaching Teams

Life is more fun together, and so is teaching. Each week teachers have 3 hours of collaborative planning time with their teams. They plan, create, discuss, modify, adapt and laugh together. When the workload is shared between teachers, students don't fall through the cracks and it creates a shared responsibility for all students.

3. Committed to Professional Development

We can't teach learners if we are not learners ourselves. We are not status quo people but love seeking out new ideas and best practice and trying it out. We want to learn, try new things, take risk and be innovative and are committed to hosting and sending our staff for great pro-D.

4. Nanaimo is a great place to live

There are few places in Canada, if anywhere, where you have as easy access to mountains, rivers, lakes and oceans as Nanaimo, without 4 months of snow! It is truly beautiful here with so many places to explore, but if you prefer the city, Nanaimo has everything you could want and it is easy to get to Victoria or Vancouver.
